THIS IS UNEVALUATED INFORMATION 50X1-HUM 1, The radio installation was located about 5 miles west of KRASMOYE SELO (3006'E/59044'H), north of a main road leading The airfield called LETCHER-50X1-HUM DEREVNYA, in English "Flyers' Village" was about I mile to the north-northeast. 2. The object was called VARSHAVSKY after the colonel or lieutenant colonel who was the CO of the construction company assigned to work there. The bar brick structure which was completed at the time of observation was not yet equipped. The installation covering an area of about 2.5 miles in square comprised several groups of masts. There were two wipos of mast groups. One type consisted of 5 or (masts, the other of 2 masts only. The latter type was between every two or three aroups of the first type. 50X1-HUM a. Description of the two-mast type The mests stood about 100 to 115 feet apart. Hach mast was anchored to the ground by four guys. Both masts were connected by a wire from which two metal rings, 33 feet apart and about 30 to 40 inches in diameter, were suspended. Each ring contained a smaller ring connected with the large one by cables. Each mast was about 12 to 14 inches in diameter. b. The 5 or 6-mast type had T-shaped wooden masts, about 3 feet high. Insulators of plastic were installed at the cross arms atop the pole. Cables were probably to min over these insulators. 50X1-HUM 990 masts were to be set up, 900 of which had been erected by December 1948. WARNING NOTICE: THIS DISTRIBUTION LISTING MUST BE EXCISED BEFORE PUBLIC RELEASE OF THIS DOCUMENT.
